R.F. butler

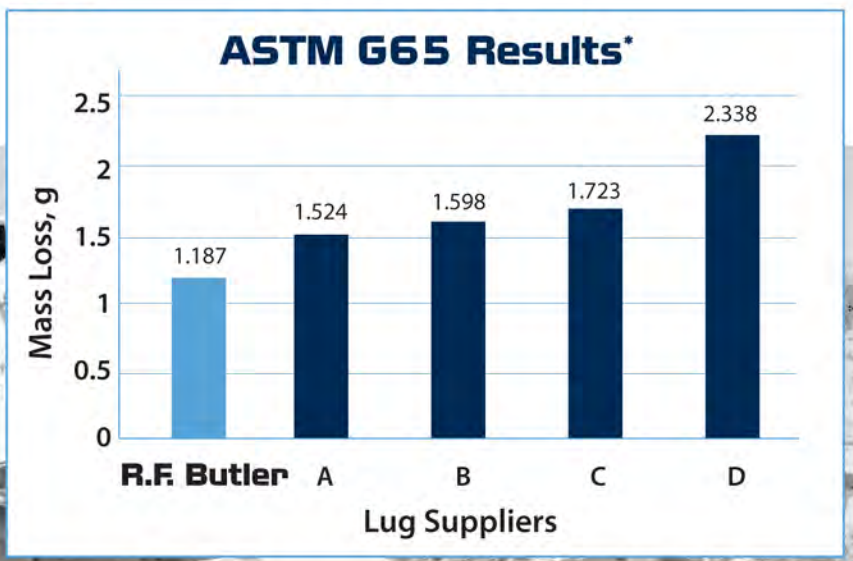
Supplying Grouser Bar and Ice Lugs for over 55 years.

Choose the premium Ice Lug on the market and eliminate additional welding costs and equipment downtime by increasing the wear life of your Lugs. **We guarantee the best wearing ice lug on the market. Ask for RFB lugs by name.**

Abrasion tests prove R.F. Butler has the longest lasting lug on market today (Figure A). R.F. Butler lugs last over 28% longer than our closest competitor.

We have upgraded our facility and now offer custom packaging and quantity options. As always we offer both High Carbon and Heat Treated products in more than 15 sizes, which can be cut to any desired length.

Figure A



*This test method covers laboratory procedures for determining the resistance of metallic materials to scratching abrasion by means of the dry sand/rubber wheel test. It is the intent of this test method to produce data that will reproducibly rank materials in their resistance to scratching abrasion under a specified set of conditions.
